

RideATA HOW TO READ AN ATA SCHEDULE TABLE

Below is an example of a route table. Each of its components are described in the pop up boxes. Read how an ATA rider plans her trip using the schedule below!

NUMBER OF RUNS IN THIS ROUTE
Some routes run only once but others run multiple times.

This means the bus revisits all or some of the stops listed again and again throughout the day and/or evening.

Clearfield - White Route Schedule		MONDAY through FRIDAY															601310			
NAME OF ROUTE		DAYS OF THE WEEK THE ROUTE RUNS															ROUTE STOP LOCATIONS		ROUTE NUMBER

ROUTE STOP TIMES These columns indicate at what time the bus will stop at the ROUTE STOP LOCATION above it in the table.

Read Edna's Story [below] to see how she uses ATA route schedules to plan her grocery shopping trip!

"I found several bus routes in and around my neighborhood on ATA's new website... www.rideata.net Looking over the bus stop locations I found a route that was close to my home and would take me to where I needed to go."

DEPART HYDE UNI-MART	 1:28pm	Reading the schedule from Left to Right you can see that if I wanted to get ON the bus at 1:28pm I would need to be at HYDE UNI-MART in Clearfield to catch the bus. This is the stop closest to my home so I will use this one.
ARRIVE J.G. WAREHOUSE	 2:02pm	The bus comfortably and safely takes me to J.G. Warehouse where I want to do some grocery shopping. The bus drops me off at 2:02pm . I have 1 hour to do my shopping and get back to the bus stop for my return trip.
DEPART J.G. WAREHOUSE	 3:02pm	I have my groceries and board the bus at 3:02pm just outside J.G. Warehouse and I am on my way back home.
ARRIVE HYDE UNI-MART	 3:28pm	The ATA bus takes me back to my neighborhood stop at HYDE UNI-MART and drops me off at 3:28pm !

The round trip only took 2 hours of my afternoon and I didn't have to worry about traffic, parking, pumping gas or anything! Thanks ATA!
